

Little Lincoln's Fireside Tales – Science

My Scientific Discovery!

Explore like a scientist! Scientists collect specimens to learn more about them. Specimens can be animals, plants, or pieces of rock or minerals. By studying specimens, we learn more about the natural world around us. Explore your backyard or house to find a specimen and complete this guide to learn more about it.

<p>My specimen up close.</p>	<p>Where I discovered my specimen.</p>	<p>Name: _____</p> <p>Size: _____</p> <p>Feels like: _____</p> <p>Smells like: _____</p> <p>Habitat: _____</p> <p>Scientific Observations</p>
