Don't judge a book by its cover!

A Wrinkle in Time

Sometimes appearances can be deceiving. To better understand a character, it is important to examine both their physical *and* personal traits. Physical traits are the traits we can see (such as hair color, clothing, eye color, etc.). Personal traits refer to the thoughts, feelings, words, and actions of that character. Remember to look out for these when deciding what character to choose. Once you have chosen your character, use the chart below to determine what makes them so unique!
