## The Green Bicycle

The word “consequence” often carries a negative or unpleasant connotation. However, as we have learned in *The Green Bicycle*, not all causes are met with negative effects. Wadjda experiences both ends of the spectrum and the book includes many examples of how actions dramatically impact outcomes. Use the diagram below to map out a few examples of cause and effect that you found in the book. Arrange them from positive, to neutral, to negative so you can see the different ways Wadjda and the characters that surround her are effected by different actions and decisions..
